EDUCATION

SIES Graduate School Of Technology

Bachelor of Information Technology CGPA- 8.59

Mumbai

July 2024 – July 2028

Ryan International School

Secondary (89.9) | Upper Secondary (74.8)

Mumbai

July 2022 – May 2024

SKILLS

Languages: Python, C, JavaScript, HTML/CSS

Databases: MySQL, MongoDB, Prisma

Frameworks: React, Node.js, Express, Flask, FastAPI, WordPress

Developer Tools: Git, Google Colab, VS Code, PyCharm, IntelliJ, Docker

Other Tools: Figma, Affinity, n8n

PROJECTS

ProjectPulse | JavaScript, Prisma, RAG | In Development

2026

- Developing an end-to-end Agile project management platform for projects and sprints, with role-based access for PMO, consultant, and user roles.
- Supports detailed project information, project reports, and sprint report exports.
- Automatically generates sprints from project start and end dates, removing manual sprint planning.
- Building RAG-based report generation with Prisma as the database layer.

CleanupCrew | React.js, Node.js, TypeScript, Express | Live ↗

2025

- Led initial frontend development of a full-stack cleanup management platform covering drive tracking, donations, community reporting, dashboards, and leaderboards.
- Built reusable React components for authentication, drive listings, dashboards, leaderboards, and user workflows.
- Integrated the frontend with REST APIs built using Node.js and Express, contributing to the application architecture.
- Authored UI refactoring scripts (refactor.js, polish.js, fix-ui.js) to improve component structure and visual consistency.

Cybrion Consulting | React.js, Vite, JavaScript, CSS, EmailJS | Live ↗

2025

- Designed and developed an advisory-company website end-to-end, from Figma UI design through production deployment on Vercel.
- Translated the Figma design into responsive React components with custom CSS and integrated EmailJS for direct client-to-inbox email functionality.
- Managed the complete project lifecycle independently – design, development, integration, and deployment.

To-Do List | Figma, Browser Storage | Live ↗

2025

- Designed the complete frontend in Figma and translated it into a working application as my first project.
- Implemented a glassmorphism, dark-themed interface with task persistence using browser storage and no backend.

CERTIFICATIONS

Supervised Machine Learning: Regression and Classification | Coursera, DeepLearning.AI

2025

- Completed Andrew Ng's foundational ML course covering supervised learning, linear and logistic regression, and classification algorithms.
